“Creating Your Learning Environment to Support DEI”

EVENTS CALENDAR

Department of Pediatrics

Across our 26 divisions, centers, and institutes, Pitt Pediatrics discovers and delivers the best care for the most kids. Our state-of-the-art laboratories funded by over \$34 million in annual NIH support develop life-saving treatments for critically ill children and young adults. Maintaining the finest residency and fellowship training programs in the industry, we place education at the intersection of teamwork, service, and professional development. At Pitt Pediatrics, we consistently push the boundaries to achieve the impossible. For more information, go to pediatrics.pitt.edu.

A background image showing three healthcare professionals in a meeting. In the center, a man with grey hair and glasses, wearing blue scrubs and a stethoscope, is looking down at a document. To his left, a man with dark hair and glasses, wearing a suit and a red lanyard, is also looking at the document. To the right, a woman with dark hair tied back is looking towards the center. There are pink and green sticky notes on a wall in the background.

Quality Improvement Education

Courses here assist users with the quality improvement process from beginning to end.
