

The background of the slide is a complex, abstract network of interconnected nodes and lines. The nodes are represented by small circles in various shades of brown, tan, and grey. The lines connecting them are thin and light-colored, creating a web-like pattern across the entire slide. The overall aesthetic is clean and modern, suggesting a digital or scientific theme.

Children's Hospital of Pittsburgh PedSDP

PGY-1

- Medical School: University of South Dakota
- Fellowship: Hematology/Oncology
- Research Track: ARP
- Research Interests: The tumor microenvironment, especially sarcomas, and the interaction of the peripheral nervous system on developing tumors. Also interested in cancer survivorship and ways to improve quality of life after cancer treatment.
- Hobbies: In my time off, I enjoy cooking and traveling. I was a diver all the way through college, and I enjoy keeping up with the USA and international diving competitions. I am also a big fan of comic books!

TONY RESTAINO, MD, PHD

PGY-2

- Medical School: University of Miami Miller School of Medicine
- Fellowship: Hematology/Oncology
- Research Track: ARP
- Research Interests: I'm interested in the modulation of mRNA and protein synthesis as therapeutic strategy for pediatric cancers including leukemia, lymphoma, and glioblastoma.
- Hobbies: I enjoy running, IPAs, concerts/live music, and traveling with my partner. I was once on an episode of Slime Time Live!

TYLER CUNNINGHAM, MD, PHD

- Medical School: Ponce Health Sciences University- Ponce School of Medicine
- Fellowship: Pulmonology
- Research Track: ARP
- Research Interests: Asthma, Rare Lung Diseases, and Social Determinants of Health
- Hobbies: I collect vinyl records!

JESUS
MELENDEZ-
MONTAÑEZ,
MD

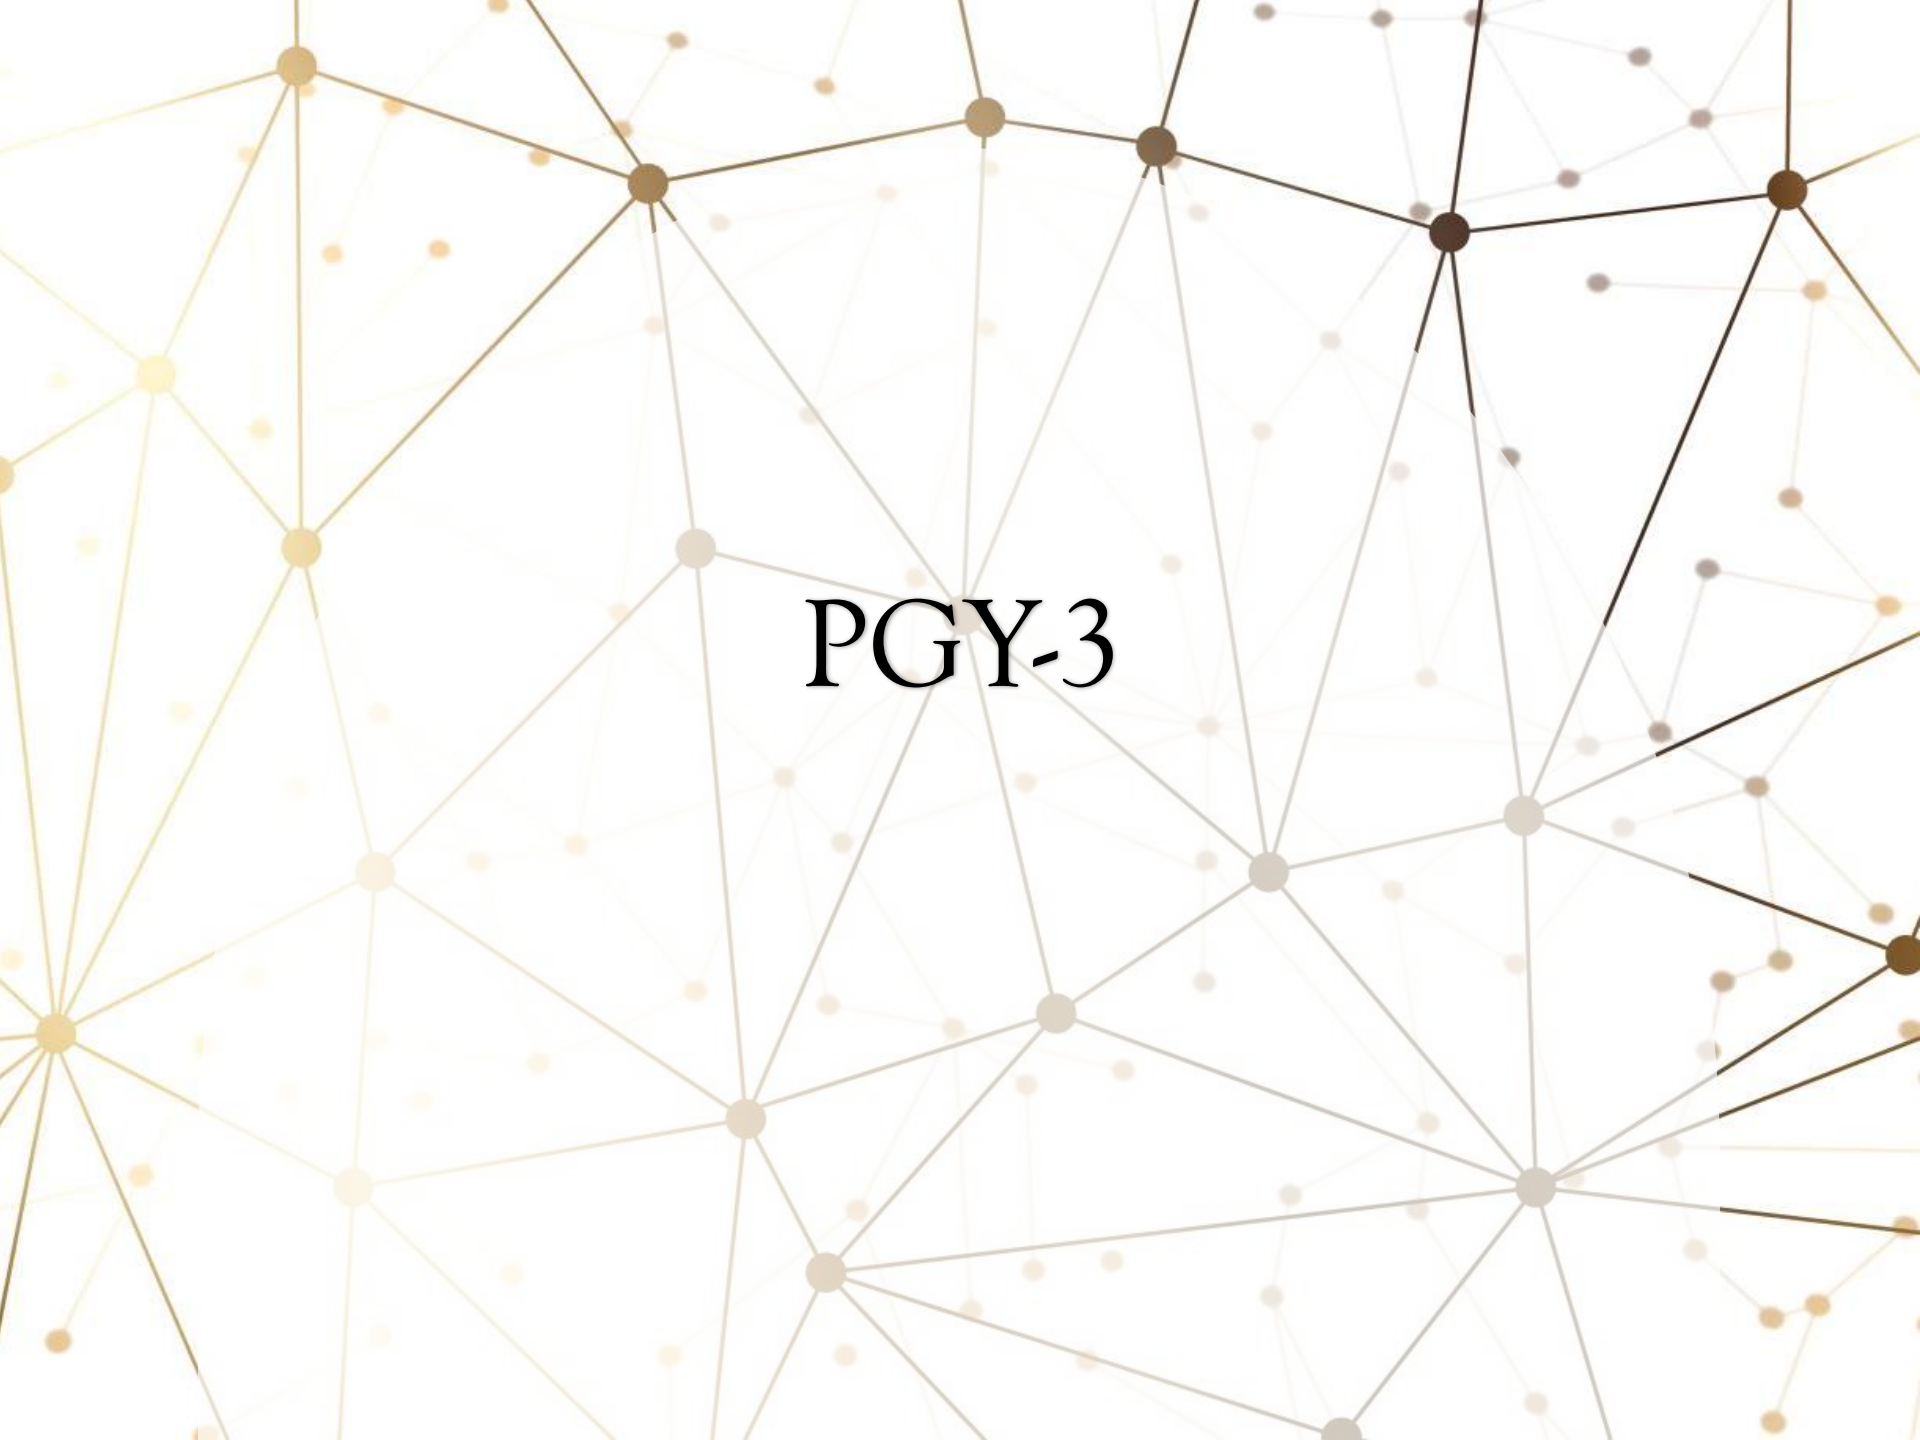

- Medical School: UW-Madison
- Fellowship: Infectious Disease
- Research Track: IRP
- Research Interests: Metabolic rewiring during infections
- Hobbies: I love gardening! Some of my favorite things to grow are tomatoes, tomatillos, brussels sprouts, dahlias, and zinnias.

LAURA STEENBERGE, MD, PHD

- Medical School: University of Wisconsin School of Medicine and Public Health
- Fellowship: Adolescent Medicine
- Research Track: ARP
- Research interests: Community partnered research, community-based interventions, public health, adolescent and LGBTQ+ health, health equity
- Hobbies: Outside of medicine, I love to read (fun fact: I've read every book that has won the Pulitzer Prize for fiction) and run (fun fact: I run the Pittsburgh 1/2 marathon every spring).

HALEY STROUF MOTLEY, MD, MPH

PGY-3

- Medical School: University of Florida
- Fellowship: PICU
- Research Track: Categorical Plus
- Research Interests: Pharmacogenomics of sedation in the PICU
- Hobbies: You'll find me hiking with my husband and dogs and/or trying out a new breweries on the weekends. During the week, I'll be at a gym classes with co-residents after work. I am also currently trying to learn German through Duolingo to talk more to my husband's family.

EMMA POWERS, MD

PGY-4

ADRIANA
FRESQUEZ, MD,
PHD

- Undergrad: Colorado State University
- Medical School: Chicago Medical School at Rosalind Franklin University
- Fellowship: Endocrinology
- Research Track: Integrated Research Pathway
- Research Interests: Calcium signaling and pediatric obesity
- Hobbies: Board games, weight lifting, petting my cat

CLINT PIPER,
MD, PHD

- Undergrad: University of Michigan
- Medical School: Medical College of Wisconsin
- Fellowship: Hematology/Oncology
- Research Track: Accelerated Research Pathway
- Research Interests: Pediatric leukemia and the biology of graft vs host disease
- Funding: T32
- Hobbies: Running, biking, traveling, exploring Pittsburgh's nooks and crannies

MICHELLE ROE,
MD

- Undergrad: University of Connecticut
- Medical School: University of South Florida
- Fellowship: Hematology/Oncology
- Research Track: Accelerated Research Pathway
- Research Interests: All things sarcoma!
- Funding: T32 and Burroughs Welcome Fund Physician Scientist Incubator Program
- Hobbies: Spending time with family, hiking, camping, biking, enjoying live music

TIANYI WU,
MD, PHD

- Undergrad: Duke University
- Medical School: UT Southwestern
- Fellowship: PICU
- Research Track: Integrated Research Pathway
- Research Interests: DNA damage repair, cancer genomics
- Hobbies: Baking, puzzles, cycling

PGY-5

- Undergrad: Pomona College
- Medical School: SUNY Upstate Medical University
- Fellowship: Infectious Diseases
- Research Track: Integrated Research Pathway
- Research Interests: Host-pathogen interactions, viral modulation of immune system
- Hobbies: Cooking, baking, board games, building computers

AARON ALTMAN, MD, PHD

CATHERINE
COREY, MD,
MPH

- Undergrad: Grove City College
- Medical School: University of Pittsburgh
- Fellowship: Endocrinology
- Research Track: Accelerated Research Pathway
- Research Interests: Bone health in type 1 diabetes
- Funding: T32 and Burroughs Welcome Fund Physician Scientist Incubator Program
- Hobbies: Spoiling my dog, anything outside with my friends, baking, kayaking, failing at home repairs/projects, cheering for the Pittsburgh Steelers!

SYDNEY
ROONEY, MD

- Undergrad: Johns Hopkins University
- Medical School: Vanderbilt University
- Fellowship: Cardiology
- Research Track: post-doc years 2021-2023
- Research Interests: Utilizing high fidelity ICU data in forecasting algorithms
- Funding: Burroughs Welcome Fund Physician Scientist Incubator Program, R38 StARR Awardee
- Hobbies: Swimming, baking, reading, sitting on the porch with my dog and husband

PGY-6

SARAH
BEDOYAN, MD

- Undergrad: University of Michigan
- Medical School: Case Western Reserve University
- Fellowship: Gastroenterology
- Research Track: Integrated Research Pathway
- Research Interests: Pediatric Acute Liver Failure, Liver Transplant, Quality Improvement
- Hobbies: Reading, hiking, cooking, hanging out with my rabbit

TSUYOSHI FUJITA,
MD, PHD

- Undergrad: Tohoku University
- Medical School: Tohoku University
- Fellowship: Hematology/Oncology
- Research Track: Categorical Plus
- Research Interests: The immune system, T cells, and monocytes/macrophages in the setting of chronic inflammation, especially cancer
- Research Funding: T32
- Hobbies: cooking (deep frying)

NICHOLAS
HARRIS, MD,
PHD

- Undergrad: University of Wisconsin
- Medical School: Vanderbilt University School of Medicine
- Fellowship: Adolescent Medicine
- Research Track: Accelerated Research Pathway
- Research Interests: The intersection of sleep, stress, and substance use in adolescents exposed to early life stress prior to development of a substance use disorder. I plan to use polysomnography (sleep EEG) and neuroimaging to identify markers that can distinguish amongst those with early life stress those at risk for development of substance misuse and use sleep as a therapeutic intervention to ameliorate that risk.
- Hobbies: Cooking, gardening, being a Dad
